DETAILED ACTION

Response to Amendment

1. In the reply filed on 11/23/2010, the applicant amended the claim listing by cancelling claims 1-146 and introducing new claims 147-166.

The amendment filed on 11/23/2010 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The new claims are not readable on the elected invention because they are drawn to methods which are independent and distinct from the elected method. The elected invention is drawn to a specific immunization protocol, i.e., mucosal administration of an antigen and a CpG, followed by boosting with the CpG via any route. The new claims introduce new independent and distinct immunization protocols, specifically: (i) mucosal administration of an antigen and a CpG, followed by systemic boosting with the antigen; and (ii) systemic administration of an antigen, followed by mucosal boosting with the antigen and a CpG.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
